Apply with Indeed

Apply with Indeed (AWI) enables your clients to add an *Apply with Indeed* button to their career site, allowing job seekers to apply using their Indeed profile—while application data flows directly into your ATS, keeping their workflows seamless and centralized.

If your ATS already has an active Indeed Apply Sync integration, adding *Apply with Indeed* to client job pages is quick and straightforward.

How Apply with Indeed benefits you and your clients

Enable the Apply with Indeed integration to strengthen your ATS offering and deliver more value to your clients:

- ✓ **Help your clients reduce candidate drop-off and boost application completion rates on their career sites**
- ✓ **Enhance your clients' hiring workflows with a seamless Indeed integration**
- ✓ **Enable candidates from Indeed's 610M¹ Job Seeker Profiles to apply directly on your clients' career sites using their Indeed profiles**

Drive a **50%** conversion rate from click to apply with a streamlined process²

¹ Indeed data (worldwide), job seeker accounts that have a unique, verified email address

² Indeed data (WW)

Partners have found the integration process to be straightforward and efficient. For more information on the process, please contact [Indeed Marketplace support](#).
